# **CONCENTRATED SUPER PHOSPHATE**

- Phosphorous is a primary food element and essential for premium plant growth.
- Phosphorous stimulates early root formation and growth, gives rapid and vigorous start to plants, hastens maturity, stimulates blooming, and gives winter hardiness.

## **Directions**

**Established lawns:** Apply 1.1 lbs. per 1000 sq. ft. in early spring or late fall to insure a proper phosphorous level for vigorous root development, early growth, and winter hardiness.

**New lawns:** Apply 2.2 lbs. per 1000 sq. ft. and rake into soil before seeding.

**Trees:** Apply 5 lbs. per 1 inch tree diameter in holes around dripline and under outside foliage.

**Vegetables, Flowers, Shrubs:** Apply at the rate of 1 to 2 lbs. per 100 sq. ft. of bed area. Mix thoroughly into top 2 to 4 inches of soil.

**Composting:** Add 1/4 lb. to each bushel of leaves, cuttings, etc.

## **CAUTION**

**Keep out of reach of children.**

**NET WT. 25 LBS. (11.34 kg)**
