This product combines the highest quality ingredients available to provide the basic elements turf needs for vigorous growth. Nitrogen is for steady, uniform feeding. This product contains an increased percentage of phosphorous and potash to promote good root and stem development.

DIRECTIONS FOR USE

FOR ESTABLISHED LAWN: Apply this product in the Fall (September-October) to produce strong vigorous turf which will over-winter in a healthy condition. Make this product a part of your total lawn fertilizing program.

FOR NEW SEEDING OR SODDING: Use suggested spreader setting for established lawns but go over the area to be seeded twice (once in each direction). Work thoroughly into soil before seeding or sodding.
