

NATURALLY BETTER

YUCCA[®]

WETTING AGENT AND SOIL PENETRANT

Yuccah[®] is a soil wetting agent and spreader derived from *Yucca schidigera* plant extracts. This is a unique desert shrub that produces natural surfactants which enable them to efficiently utilize water and survive in harsh desert climates with extreme heat, drought and soil salinity. Although pure *Yucca* extracts are effective surfactants, **Yuccah[®]** is modified with an additive to enhance wetting and penetrant properties for outstanding performance.

- Alleviates hydrophobic conditions
- Naturally biodegrades in soil
- Safe, non-scorching formulation

NET CONTENTS: 1 Gallon (3.78 Liters)
NET WT: 8.56 Lbs

DIRECTIONS FOR USE:

Turf and Ornamentals: Apply with water or spray mixes to address hydrophobic soil conditions. For optimal results dilute 1:100 in water (1 ounce per gallon of water), and apply as a spray or soil drench. **Yuccah[®]** may foam with agitation.

APPLICATION RATES

APPLICATION	RATE	COVERAGE	FREQUENCY/METHOD
Tees/Greens	6-oz	1,000 sq ft	Monthly
Seeding, Sodding and Lawns	6-oz	1,000 sq ft	After Installation (as needed)
Hydroseeding	2-Gal	1 acre	Tank Mix

INGREDIENTS % By Weight

Active Ingredients	99.8%
90% <i>Yucca Schidigera</i> Plant Extract	
9.8% Copolymerized Alkane Oxides (Non-ionic Surfactant)	
Inert Ingredients	0.2%
0.2% Copper Sulfate (preservative)	

YUCCA[®] IS NOT A PLANT FOOD PRODUCT.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.regulatory-info-phc.com>

COMPATIBILITY: Nontoxic to plants and will not cause leaf burn or stress at standard use rates. Use whenever wetting agents are needed to improve water penetration or spreading. Compatible with most soluble fertilizers and pesticides. **Yuccah[®]** mixes easily in cold water and stays in solution without additional agitation.

STORAGE: Avoid excessive heat and freezing. **Yuccah[®]** is very stable in its concentrated state. For maximum shelf life, store in a cool dry area. Once diluted in water, **Yuccah[®]** will begin to degrade after 48 hours.

HEALTH AND SAFETY: Avoid contact with eyes. May be harmful if swallowed. Keep out of reach of children. If ingested, drink water and seek medical attention. Do not apply directly to lakes and ponds.

Keep out of reach of children.
